

VLADIMIR MILINIĆ

WEB DEVELOPER

ABOUT ME

Self-taught Web Developer specializing in the modern JavaScript ecosystem, with hands-on experience building and deploying modern web applications using Next.js, React, Node.js, Express, and MongoDB. Combines professional maturity, persistence and a deep long-term commitment to software development.

PROJECTS

Instagram Clone – Fullstack Web Application

[Live Demo](#) | [GitHub Repo](#)

- Built a full-featured social media application with user authentication (JWT-based)
- Implemented core features: post creation, likes, comments, and user profiles
- Integrated image upload and optimization using Cloudinary
- Developed REST API with Express and MongoDB
- Implemented email functionality (account-related actions) using Resend

Beauty Salon – Business Web Solution

[Live Demo](#) | [GitHub Repo](#)

- Developed and deployed a modern, responsive business website for a real client
- Implemented full SEO optimization (meta tags, titles, performance improvements)
- Optimized images using Next.js Image component for faster loading
- Designed responsive UI for mobile, tablet, and desktop devices

Shopping List App – CRUD Application

[Live Demo](#) | [GitHub Repo](#)

- Built a mobile first CRUD application with strict client-side validation and sanitization using React.
- Implemented local storage for persistent client-side data
- Engineered a Progressive Web App (PWA) for reliable offline functionality

KEY ACHIEVEMENTS

Selected among the top 100 candidates out of 10,000+ applicants in a government-supported IT retraining program (2017) organized in cooperation with VOICT (Vojvodina ICT Cluster). Ranked among the **top 5 participants** in the Java Junior course and received an official recommendation from the program organizers.

[My Portfolio](#)
